Rensselaer Named One of America’s “New Ivies” by Kaplan/Newsweek College Guide

Kaplan and Newsweek recently announced that Rensselaer has been named to the elite “New Ivies” list, published in the 2007 Kaplan/Newsweek “How to Get into College Guide.” This year’s Kaplan/Newsweek guide introduces for the first time the “New Ivies,” colleges whose first-rate academic programs, combined with a population boom in top students, have fueled their rise in stature and favor among the nation’s top students, administrators, and faculty—edging them to a competitive status rivaling the Ivy League. Rensselaer was one of 25 schools selected as a “New Ivy,” based on admissions statistics as well as interviews with administrators, students, faculty, and alumni.

“It is wonderful to receive this recognition of Rensselaer’s historic strengths and validation of the extraordinary advances we have made under The Rensselaer Plan,” said Rensselaer President Shirley Ann Jackson. “We have been making major investments in our research and education facilities and in the overall quality of the student experience. These investments are paying off, attracting new faculty, students, and research partners from around the world. It is, indeed, an exciting time to be at Rensselaer.”

The 264-page Kaplan/Newsweek guide is available in bookstores and can also be ordered on Kaplan’s Web site at: www.kaptest.com/store/. To read the article entitled “25 New Ivies” please see: www.msnbc.msn.com/id/14325172/site/newsweek/.

Danchak Receives RAA Director’s Award

Rebecca M. Danchak (’78 M.S. Management), Acting Associate Dean for Student Services, Rensselaer at Hartford, was recognized with the Rensselaer Alumni Association (RAA) Director’s Award at the Alumni Awards Dinner held June 9 at the Troy campus. The award is presented to individuals who have made significant contributions to the success of the RAA and to the Office of Alumni Relations during the past year. Danchak also serves as Assistant Secretary of the Board of Trustees, Rensselaer Hartford Graduate Center, Inc.

The citation for her award read: “We have long known Rebecca Danchak as a pillar of our community. In 2001, she became the first Hartford staff member to be honored with the prestigious Pillar of Rensselaer Award for her exemplary work as Director of Admissions at the Hartford campus. Indeed, in so many ways Rebecca IS Rensselaer in Hartford, an employee and alumna who knows everyone and has worn every hat. She has worked at Hartford for more than 32 years-28 of them as an alumna—and her loyalty to both campuses as well as her deep understanding of the university as a whole is apparent in everything she does. For serving the Hartford Chapter in countless ways, for her Annual Fund support, for making her alma mater her life’s work, we salute

Expanded Role for Professor Luddy in United Nations Groups

UN/CEFACT

William J. Luddy, Jr., J.D., Clinical Professor, Lally School of Management and Technology, has been appointed to the U.S. Technical Advisory Group working on the development of a variety of international standards for international trade and business for e-Commerce and IT. In addition, Professor Luddy was named as a U.S. Technical Expert for the United Nations Center for Electronic Business and Trade Facilitation (UN/CEFACT) headquartered in Geneva, Switzerland.

UN/CEFACT appointed Luddy to its Legal Group in mid-May and was asked specifically to work on a number of critical projects and to advise various technical groups (composed mostly of government and industry IT experts) on the international legal issues related to the international trade standards being developed. In late May, Professor Luddy attended the UN/CEFACT Annual Plenary Meetings in Geneva, Switzerland. He participated heavily in the Legal Group meetings as well as the Plenary sessions.

The United Nations, through its CEFACT, supports activities dedicated to improving the ability of business, trade and administrative organizations, from developed, developing and transitional economies, to exchange products and relevant services effectively. Its principal focus is on facilitating national and international transactions through the simplification and harmonization of processes, procedures and information flows, and thereby contribute to the growth of global commerce. To learn more, please visit: www.un/cefact.

UNCITRAL

The United Nations Economic Council for Europe (UNECE) named Professor Luddy its Delegate to the Annual Plenary Meetings of the United Nations Commission for International Trade Law
Cole Library Introduces infoAnytime

The Cole Library is pleased to announce a new 24/7 virtual reference service called infoAnytime. infoAnytime, while available around-the-clock, is primarily designed to provide after-hours online reference services to the Rensselaer community. The staff of the Cole Library continues to be available to work with faculty, students, and staff during library hours.

infoAnytime, accessible through the library’s home page at: www.rh.edu/library, provides access to online chat sessions with qualified librarians to discuss research queries. infoAnytime staff answer questions and guide searches. Additionally they can co-browse databases with users in real-time. All sessions are recorded for quality control. At the end of each session, users can request a transcript for their records.

Alumni News

1980s
John G. Athas (’82 M.S. Mechanical Engineering) has joined La Capra Associates as a Managing Consultant. Mr. Athas brings nearly 30 years of diverse electric industry experience having worked for an electric utility, a competitive retail electric services provider, a power technology manufacturer, and an energy industry consulting firm.

Carl S. Nowiszewski (’93 M.B.A.) has joined Parkinson Technologies, Inc., as Segment Manager and Business Development Executive, Nonwovens. He has over 20 years of international experience in paper and non-wovens manufacturing and has held management positions in operations, maintenance, sales and business development.

Christopher J. Roethlein (’93 M.B.A.), Associate Professor of Operations Management at Bryant University, has been awarded a Fulbright Scholar grant to lecture at the University of Hradec Kralove and the University of Pardubice in the Czech Republic during the spring semester of 2007.

Danchak Receives Award Continued from page 1
Rebecca Danchak and present her the Director’s Award. Danchak started her career at Rensselaer at Hartford (then RPI of Connecticut, The Hartford Graduate Center) in 1974. She holds several degrees including an A.A. from the Hartford College for Women; a B.A. in Modern Languages from Union College, summa cum laude, where she was also elected to Phi Beta Kappa; an M.S. in Management from Rensselaer Polytechnic Institute; and an M.A. in Counseling from Saint Joseph College.

Danchak has been very active in public service activities as a member of the Hartford Proud and Beautiful Board of Directors and served as the first President of the Board of the Odyssey Community School Board of Trustees.

Luddy Role in UN Continued from page 1
(UNCITRAL) held at the UN Headquarters in June and July.
Professor Luddy has participated for several years as a member of the U.S. and the American Bar Association (ABA) Delegations (heading the ABA Delegation in 2005) to UNCITRAL’s Working Group on Electronic Commerce in the development of its new “Convention on the Use of Electronic Communications in International Contracts.” This Convention was approved by the United Nations General Assembly last November.

While at the UNCITRAL Plenary, Professor Luddy attended the official signing ceremony for the Convention on July 6 and also met with Ambassadors from various countries to the UN. He participated in development of the ABA’s urging of the U.S. Department of State to become a signatory nation to this new electronic commerce convention.

2000s

Susan G. Townsley (’00 M.B.A.) of Old Saybrook, was named Executive Director of the Literacy Volunteers of Eastern Connecticut on May 8. She most recently served as executive director of Connecticut’s Division of Special Revenue.

Matthew S. Sandberg (’02 M.S. Computer Science) of Hebron, was promoted to Director of Partner Solutions at Golden Consulting Group. He creates new custom software applications and software training classes, leads them, and manages the technical trainers.

In Memoriam

Faculty

Richard W. Kolk, Ph.D., of Portland, died on September 4, 2006. Dr. Kolk had been Professor and Chairman of Electrical Engineering at the former Hartford Graduate Center (now Rensselaer’s Hartford Campus). He taught Automatic Control, Dynamics, Circuits, and Systems and Digital Systems Processing. Previously, he had spent 19 years as a practicing engineer and supervisor in the aerospace industry including 11 years with the Missiles and Space Systems and Hamilton Standard divisions of United Aircraft Corporation.
Rensselaer at Hartford’s 50th anniversary recognized the Hartford campus for 50 years of Educating Working Professionals (EWP) in Connecticut. Two special events were held on June 2 to celebrate: the dedication ceremony of the Alumni Hall of Fame and the Rensselaer Alumni in Space display case, and a gala reception featuring guest speaker Congressman John B. Larson.

The achievements of Rensselaer alumni through the years have had important and far-reaching effects. “The Hall of Fame serves as a reminder of the formidable history, achievement, and leadership of alumni whose accomplishments have stood the test of time. Induction into this prestigious Rensselaer Hall of Fame is reserved for individuals whose contributions to Rensselaer, to their professions, to society, and to the world, are worthy of our highest honor,” said Dr. Shirley Ann Jackson, President, Rensselaer Polytechnic Institute.

In 1955, the Rensselaer Alumni Association, with the full endorsement of the Institute of the Board of Trustees, created the Rensselaer Alumni Hall of Fame to preserve and celebrate the exceptional heritage of alumni accomplishments throughout the years. The stories of these innovators, pioneers, and entrepreneurs provide a powerful source of inspiration for all who follow in their paths, and who, like them, will continue to shape our world. The total membership in the Rensselaer Hall of Fame is currently at 53. Visit the Hall of Fame at the Hartford Campus, located on Level 3, and pick up a copy of the publication, Showcase of Achievement: The Rensselaer Alumni Hall of Fame.

The Rensselaer Alumni in Space display case is also located on Level 3. Three Rensselaer alumni, all of whom attended classes at the Hartford campus, have flown in space:

• **John “Jack” Swigert** (Class of 1965) joined NASA’s fifth astronaut class. He was the prime command pilot of Apollo 13, which was forced to abort its mission to the moon and endure a harrowing journey back to Earth. He was awarded the Presidential Medal of Freedom in 1970. Swigert was posthumously inducted into the Rensselaer Hall of Fame in 2003.

• **Richard “Rick” Mastracchio** (Class of 1987), NASA astronaut, served as a mission specialist on the space shuttle Atlantis mission STS-106, that worked on building the International Space Station. He was the flight engineer during the launch and landing of the Atlantis.

• **Dennis A. Tito** (Class of 1964), founder and CEO of Wilshire Associates Inc., became the world’s first space tourist, traveling aboard a Soyuz spacecraft with a Russian crew to the International Space Station in April 2001. Tito was presented with the Distinguished Alumnus Award by the Hartford Chapter of the Rensselaer Alumni Association in 2002.

The gala reception was hosted by President Jackson and held at the Goodwin Hotel in downtown Hartford. Musical selections were performed by the Rensselaer Brass Quintet and Renssappella. John A. Minasian, Ph.D., Vice President and Dean, Rensselaer at Hartford, welcomed the guests to the reception and introduced President Jackson. During her remarks, Dr. Jackson said, “For 50 years, Rensselaer at Hartford has educated emerging leaders in Connecticut corporations, and has helped to establish networks of premier professionals. Tonight we celebrate that half century of educating new professionals for leadership, for innovation, for ethical thinking, and for intellectual entrepreneurship.”

President Jackson then presented 50th anniversary commemorative medals. According to Dr. Jackson, “Our successes would not have been possible without three leaders who stand as the human embodiment of our greatest ambitions and values. These three men all contributed outstanding vision, dedication, and leadership to the creation and growth of Rensselaer at Hartford, and they continue to sustain us with their unending loyalty and support. To commemorate their contributions to Rensselaer, we are proud to present them with 50th anniversary medals specially cast for this occasion.” The medals were presented to:

• **John F. Cassidy**, Ph.D., (Class of 1965) a former member of the Board of Trustees of Rensselaer at Hartford and the Retired Senior Vice President for Science and Technology for United Technologies Corporation. He was an initiator and staunch supporter of a global policy which pays for United Technologies employees to earn degrees in any subject and rewards them with company stock upon completion.

• **Worth Loomis** had served as Trustee of The Hartford Graduate Center from 1975 through 1989, when he was appointed its President, serving with great distinction until 1993. Upon his retirement, President Emeritus Loomis was praised by the Board of Trustees for the many ways which instilled in this institution both entrepreneurial leadership and academic quality. He was not only a vital force on this campus, but in the greater Hartford community where he led the Dexter Corporation for many years.

• **Warren Stoker**, Ph.D., (Class of 1938) was one of the founders of this institution and one of the first faculty members to relocate from Troy to Hartford to launch this venture in the 1950s. He served as Director of our first site in East Windsor, Connecticut and was named dean in 1957, helping to bring the facility to its current downtown Hartford location. He retired as President of The Hartford Graduate Center in 1976. As President Emeritus, he wrote a thirty-year retrospective, “A History of the Hartford Graduate Center, 1955-1985,” a comprehensive account of the Hartford campus from concept to reality.

President Jackson continued her remarks, saying, “Clearly, the challenges of our time call for a new kind of education - a Renaissance education, if you will. Beginning with a grounding in the fundamentals, future professionals must be prepared to work between disciplines, and in new, innovative aspects of science, engineering, technology, and management. Our role in helping

50th Anniversary
Continued from page 3

the employees of the future to be critical analyzers and consumers of information has sweeping implications for a knowledge-based economy. Equally important is our commitment to engage in dynamic collaboration with industry and government.”

The guest speaker for the gala reception, Congressman John B. Larson, a member of the U.S. House of Representatives, presented a Certificate of Special Congressional Recognition to Rensselaer at Hartford “in recognition of outstanding and invaluable service to the community.” Congressman Larson spoke about each of the evening’s honorees and also recognized the leadership efforts of President Jackson. He then directed the bulk of his remarks to students, who in his discussions with them, tell him that they admire scientists and artists. According to Larson, “Rensselaer combines both.” He emphasized that the United States is falling behind other countries in science, math, and technology. “The pursuit of truth is the pursuit of knowledge,” he said. He believes America needs student voices to face many crises, including the “Quiet Crisis” that Dr. Jackson frequently refers to. Larson continued saying, “Truth speaks to power…this can be seen in science and the arts…enlightenment.”

A brochure entitled, Rensselaer’s Hartford Campus - A Look Back, has been published. The brochure includes photos, a history of The Hartford Graduate Center/Rensselaer at Hartford, and a timeline. Copies are available at the Hartford campus and by mail upon request. In addition, a slide show, “Rensselaer at Hartford: Celebrating Fifty Years,” was created featuring a video photo essay depicting the history of The Hartford Graduate Center/Rensselaer at Hartford. The eight-minute video includes many rarely-seen archival photos. It is now available for viewing in the Cole Library, located on Level 5 at the Hartford campus.

Rensselaer Day Proclamations

To mark the 50th Anniversary of Rensselaer’s Hartford Campus, Her Excellency M. Jodi Rell, Governor, State of Connecticut, officially proclaimed June 2, 2006, as Rensselaer Polytechnic Institute Day in the State of Connecticut. The Honorable Eddie A. Perez, Mayor, City of Hartford, proclaimed June 2, 2006, as Rensselaer Day in the City of Hartford.

Governor Rell’s proclamation recognized that, “Rensselaer Polytechnic Institute has served the State of Connecticut with great distinction and has made many significant contributions to education in the Greater Hartford area and in the State of Connecticut; and Rensselaer education instills a passion for integrating technology with the necessary management skills of today’s global marketplace; and Rensselaer has made significant contributions to the economy and has enhanced the overall quality of life in Connecticut; and Rensselaer Polytechnic Institute is commemorating 50 years of educating Connecticut’s business and technical elite.”

The proclamation from Mayor Perez notes that, “Rensselaer has conferred more than 15,000 master’s degrees in Hartford over the past 50 years, with more than 12,000 alumni living in Connecticut; and these alumni have a significant positive economic impact on the state, as captains of industry, philanthropy, and the sciences; and the collaborative partnership that Rensselaer and Connecticut continues to share, has advanced a community that fosters innovation, progress, and prosperity.”
Rensselaer Graduates Reflect on Past Fifty Years of the Hartford Campus

Commencement Exercises for the 301 graduates of the Class of 2005-2006 were held at Rensselaer’s Hartford Campus on June 3, 2006. Their achievements were recognized and applauded by their families and friends, and by the faculty, staff, and administration of Rensselaer. Among the members of this outstanding class were 12 students receiving a second advanced degree from Rensselaer; three married couples, with each husband and wife receiving a master’s; two full-time students from Germany; and one Rensselaer staff member, Brian Hartlieb, System Administrator, Technical and Information Services. The Honorable Shirley Ann Jackson, President, Rensselaer Polytechnic Institute, presided over the ceremony.

Dr. Jackson noted that Rensselaer at Hartford was marking fifty years of providing graduate education to working professionals. She drew a raucous laughter when she reminded the audience of what students did not have in 1956: “Students went to the library and pulled down heavy, dusty tomes to do their research. They did not ‘Google’ anything. Think of it! There were no personal computers, no faxes, no copy machines, no Internet, no search engines, and certainly no wireless technology.”

The presentation of awards included the Computer Science Seminar Conference Awards (see page 6) and the Outstanding Student Award. Anthony J. DeMarco (’72 M.S. Management), Vice President, Hartford Chapter of the Rensselaer Alumni Association (RAA), presented the Outstanding Student Award to Ellen B. St. Aubin, who graduated with an M.S. in Management. She was a member of the Executive Master’s Program Class XXV and completed her studies with a perfect 4.0 grade point average. She is currently Director, Risk Management, Global Operations, Business Protection, for Pfizer Global Research and Development. This position is a direct result of her research, application of concepts, and academic achievement at Rensselaer. James P. Stodder, Ph.D., Clinical Associate Professor, Hartford Department of the Lally School of Management and Technology, nominated St. Aubin for the award.

The address to the graduating class was given by Thomas J. Haas, Ph.D. (’83 M.S. Management), President, State University of New York College of Agriculture and Technology at Cobleskill. Dr. Haas said, “Graduates who benefit from applied education know how to put the theories into practice. They know how a job should be done and why it should be done, and they have practical experience in applying that knowledge. They can actually perform the work themselves and assess the situations to seek ways to do jobs better. Graduates from Rensselaer have mastered the abilities and motivations needed to learn how to learn.”

The graduating class then stood while Dr. Jackson conferred the Master’s degrees. Each graduate was called by name and crossed the stage to receive a diploma folder; shake hands with President Jackson, G.P. “Bud” Peterson, Ph.D., Provost, and John A. Minasian, Ph.D., Vice President and Dean, Rensselaer at Hartford; and accept an engraved paperweight gift from the RAA. The air was filled with applause, smiles, camera flashes, cheers, and Rensselaer balloons. The vocal group, Renssapella, then led the crowd in the singing of the Alma Mater. Following the recession, a picnic was held on the grounds of the Hartford campus. The majority of guests dined inside, but some braved the sprinkle of rain drops to sit outside under the tents. And so ended another joyous Commencement!

To view the Commencement scrapbook including the full text of President Jackson’s remarks and Dr. Haas’s address, please visit: www.rh.edu/news/events/commencement06/index.html.

Graduates listen intently to the Commencement address.
Rensselaer’s Hartford Campus Employees Honored with Service Awards

Two students were recognized for their work at the 22nd Annual Rensselaer at Hartford Computer Science Seminar Conference held in April. The conference serves as a culminating experience for students to complete their master’s degrees. Both winners were distance education students, Gary A. Fisher, Sr., of LaGrange, New York, received the award for “Most Original Paper” for his paper entitled, “Internet Server Congestion Control.” Mr. Fisher is a Senior Software Engineer in the Server and Storage Lab Engineering Department at IBM Corporation in Poughkeepsie, New York. Matthew C. Brewer, of Dayton, Ohio, won the award for “Most Outstanding Presentation” for his presentation entitled, “Investigation of User Interfaces of Windows-Based Mobile Computing Devices.” Mr. Brewer is a Senior Software Engineer at PKWARE, Inc., in Miamisburg, Ohio.

The two winners commented on their studies at Rensselaer, with Mr. Fisher saying, “The best part about getting my Master’s degree was that I was able to apply most of the courses directly to my job at the time. For many of the courses, I was able to take what I learned through the course and its application to my job, and create presentations to inform my colleagues and customers. My final project was an independent study of a real problem from a previous job, and my studies gave me insights into new ways to approach and solve the problem.”

According to Mr. Brewer, “Throughout my career, I have developed several commercial user interfaces. However, I never had any formal training in Human-Computer Interaction (HCI). I believe the HCI courses I studied during my graduate school coursework will really help me create better user interfaces on the job. The research for my seminar paper and presentation helped reinforce the ideas presented in my HCI coursework. I hope to apply the work I did in usability study to the next user interface I design at PKWARE.”

Rensselaer welcomes the following new hires to the Hartford Campus:

**New Hires**

- **Stephen J. Bergeron**
  Business Analyst, Academic Unit
  Department of Engineering and Science

- **Brendan Gallagher**, Library Assistant
  The Cole Library

- **Benae Lenares**, Library Assistant
  The Cole Library

- **Christa A. Sterling** (’95 M.B.A.)
  Program Manager
  Enrollment Management

**Hartford campus service award honorees with Dr. Minasian (second from left) and Curtis Powell (far right) at the recognition dinner (left to right): Hechler, Cardillo, Johnson, Harrington, Buonannata, Potter, and Sutera. Missing from photo are Josephs and Smith.**

**Thirty Years of Service**

- **Natalie A. Sutera**
  Manager, Financial Services

**Fifteen Years of Service**

- **Marie Smith**
  Programmer Analyst/Academic Support Technical and Information Services

**Twenty Years of Service**

- **Angela Buonannata**
  Assistant Registrar
  Office of the Registrar

**Twenty-Five Years of Service**

- **Audrey C. Cardillo**
  Supervisor, Student Accounts (Accounts Receivable)
  Financial Services
Faculty and Staff News

Carole Charles, Program Administrator, Leadership and Executive Development, Rensselaer’s Centers for Professional Development, and Natalie A. Sutera, Manager, Financial Services, graduated from Saint Joseph College on May 21, each earning a B.S. in Management. In addition, Sutera received the Outstanding Auditing Student award from the Southern New England Chapter of the Institute of Internal Auditors (IIA).

Elliot B. Field was promoted to Director of Marketing and Business Development. He will be responsible for coordinating all education programs outside the Greater Hartford region. In addition, he will be responsible for all professional development programs at the Hartford campus. Mr. Field previously served as Business Manager.

Dr. Stodder was invited to give a presentation on microfinance at the Microfinance Regulation and Supervision International Meeting on June 7, in Brazil. The title of his presentation was, “Reciprocal Exchange Systems: Implications for Macroeconomic Stability.” Conference participants included Brazilian government members involved in microfinance issues, market makers, researchers, bankers, parliament members, and staff members of Banco Central do Brazil.

Summer Computer Camp

“Fits to a T”

Rensselaer at Hartford’s Summer Computer Camp completed its 26th season serving children from three Hartford area elementary schools: Barnard-Brown, Burr, and SAND. The free program is designed to increase computer literacy and research skills. This year’s theme was health, fitness, and nutrition. The students are shown on a field trip to the Basketball Hall of Fame. Rensselaer is grateful to the following contributors for their financial support of the camp: the Aetna Foundation; the Bank of America Foundation; the Hartford Foundation for Public Giving; the Knox Foundation; the George A. and Grace L. Long Foundation; and the Wickersham Fund, Bank of America, Trustee.

The student interns take a break from working for a quick photo. Pictured here are: (left to right) Donald, Miles, Mark, and Daniel. Ryan was not available for the photo.
More Wireless Areas Added To Hartford Campus

In response to student requests for wireless access at the Hartford campus, Technical and Information Services has expanded wireless coverage to include the cafeteria and courtyard, and all areas on Levels 3, 4, 5, and 7. Additional areas for wireless access will be addressed on a continuous basis. Please note that Rensselaer students will need to meet laptop criteria including wireless cards and specific software (available for download), and will have to provide user IDs to authenticate and access the wireless areas of campus. Detailed information is available at: www.rh.edu/tis/wireless. Questions should be directed to the Help Desk phone at 548-5311.

Troy Campus Celebration for EWP Graduates

Graduates from the Education for Working Professionals master’s programs from Hartford and via distance were invited to participate in Commencement weekend on the Rensselaer Troy campus. A reception was held on May 19 at the Russell Sage Dining Hall.

The graduates of 2005-2006 celebrated with their families and friends, and were applauded by the faculty, staff, and administration at Rensselaer. Dennis Gornic, Assistant Dean from the Office of Graduate Education, welcomed all in attendance. Gary J. Korman, who works at MetLife Inc. and graduated with an M.S. in Computer Science, and Ian Lotinsky, from Lockheed Martin Corporation who received an M.S. in Information Technology, shared details on their graduate education journey as working professionals. Then, Kim Scalzo, Director, Outreach Programs, presented gifts to the graduates. Howard Hollander, Senior Program Manager, Information Systems Leadership Development Program, Lockheed Martin Enterprise Information Systems, shared some additional comments with the graduates to close out the celebration.

Save the Date: Open House for PE and LS Licensing Examination

Rensselaer at Hartford will host a FREE Open House on November 1, 2006 at 5:30 p.m. to review the application process for the Professional Engineers (PE) and Land Surveyors (LS) licensing exams. For more information, please contact Elaine Papanic at (860) 548-2477; toll-free at (800) 433-4723, ext. 2477; e-mail: cdp-info@rh.edu; or visit: www.rh.edu/rcpd/pe/.
